

Finesse

Fine English pewter

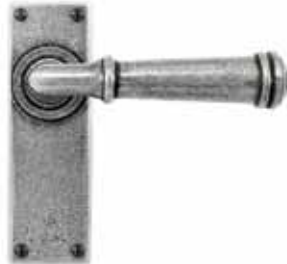

The **Finesse** range uses only the best lead-free pewter.

Pewter has a warm and lustrous quality, which is hand finished to give a unique patina.

These products are neither plated nor laquered, but cast in solid pewter and made in England.

"Ironmongery made easy"

Clayton Munroe forge this ironmongery in Devon. Each piece is hand wrought to offer a range where every item is unique and genuinely hand made.

This range is ideal for use on period and historic properties for which the blacksmith made ironmongery with a **"rough at the edges"** feel would have been the norm.
