

Quality Brass

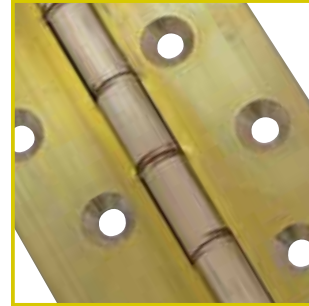

Quality and value

The **Quality Brass** range from Price & Oliver is predominantly made in Europe. Made to exacting standards using modern, high volume, production techniques, it offers a quality range of products at long-term value-for-money prices.

This range can be specified in confidence for any light commercial or domestic situation where economy and quality are important factors.

The lever furniture shown here has a 10 year domestic warranty so should not be confused with the many similar looking products offered in the market today.

For the ultimate in brassware, please see our Superior Quality Brass.
