

Solo AS

Economic reliability

Solo AS is British manufactured to stringent quality control procedures to produce a robust and attractive range at an economic cost.

Its sturdy reliability makes it ideal for use in all sorts of commercial projects and indeed has been specified and used in many schools, hospitals and offices.

The superior polished aluminium finish and proven track record for performance makes **Solo AS** stand out from similar looking imported 19mm diameter ranges.

The special fixed spindles and back-to-back fixings on the lever handles ensure that they perform well in high usage areas.
