

Superior Quality Brass

Classic british brassfoundry

The **Superior Quality Brass** range from Price & Oliver is made in England by the most respected names in the industry: Frank Allart, Brassart and Samuel Heath.

Using a combination of traditional brassfounders skills and modern production methods, they create some of the finest brass products available in the world today.

Only the best quality raw materials are used and finishing is carried out to the highest standards to offer ranges that can be fitted in the finest new and historic buildings.

Most items are available in a range of other quality finishes including chrome, nickel and satin, with many items also being made in solid bronze.

Historic fittings can also be refurbished and copied to special order.
