

## Bowling Ball Hardware Sets

The Ultra Bowling Ball has been designed and tested with staff and users in mind.

The Registered Design has exceptional grip that allows the knob to turn and safely pull a door open. With an anti-slip surface that allows wet fingers to operate without sliding off.

The concealed fixing method, locks securely to the door, so the Bowling Ball can be used to pull open a door.

It's robust design and manufacture makes it suitable for Health Care, Schools, airports, custodial and public buildings.

The bowling ball is supplied in a combination of tested door sets for latching doors, bathroom doors and door pulls.
